

Land Rover A/C Condenser Fan

Black Dog Manufacturing has adapted a fan motor and cooling fan for replacement of one factory fan. The "replacement unit" is fully assembled with fan and replacement motor.

Product Description

The original factory unit requires that the entire Dual fan assembly be purchased when only one fan has failed. Black Dog offers the single fan replacement kit, wiring instructions are included. Black Dog uses an aftermarket motor together with proprietary brackets to make replacement a "snap". Kit contains one fan and mounting hardware.

Features & Benefits

- All brackets, Installation instructions and hardware are included.
- Factory mounts do not require modification
- Designed for easy installation
- Saves customer time and money
- 12 month warranty

Part# & Application

STC3147.KIT - Discovery 1 1994-1999 | Range Rover 1995 Only: *single fan replacement kit*
